

PLAN FOR APPROVAL OF PROPOSED EPS STANDARDS

PHASE I:

Final Draft Wording in:	January 14, 2002
Documents mailed, E-mailed:	January 28, 2002
Responses by parties:	February 15, 2002
Working Group meeting	February 22, 2002
To Director for review/approval:	February 28, 2002

Items to be included in Phase I

Equipment Standards & Eligibility Criteria

Solar Water Heating
Wind systems
Landfill gas systems
Biomass systems
R & D solar electric systems
Photovoltaics

Operating Procedures

IV. Extra Credit Multipliers

1. Early Installation extra Credit Multiplier (1618 C.1.)
2. Solar Economic Development Extra Credit Multiplier (1618 C.2)
 - a. In-state Power Plant
 - b. In-state Manufacturing and Installation Content

VIII. Banking and sale of portfolio kWh

1. Banking of kWh
2. Sale/trading of portfolio kWh
3. EPS Certificate Guidelines

PHASE II:

Final Draft Wording in: February 28, 2002
Documents mailed, E-mailed: March 15, 2002
Responses by parties: March 29, 2002
To Director for review/approval: April 19, 2002

Items to be included in Phase II

Equipment Standards & Eligibility Criteria

Solar Trough Electricity Generating Systems
Solar Trough Solar Thermal Systems

Operating Procedures

IV. 3. Distributed Generation & Incentive Program Extra Credit Multipliers (1618 C.3.)

- a. Installed on customers premises
- b. Green pricing programs
- c. Net Metering or Net Billing Programs
- d. Solar leasing programs

4. Maximum extra credits

V. Reports

X. Partial credit for investment in solar electric manufacturing plant

PHASE III:

Final Draft Wording in: April 15, 2002
Documents mailed, E-mailed: April 30, 2002
Responses by parties: May 17, 2002
To Director for review/approval: May 31, 2002

Items to be included in Phase III

Equipment Standards & Eligibility Criteria

Solar Air Conditioning

Operating Procedures

- I. Portfolio Surcharge (1618 A)
 - Pro-rata charge to ESPs
 - Accounting issues for special circumstances
- II. Portfolio Percentage (1618 B1)
- III. Environmental Portfolio Cost Evaluation Working Group
- VI. Deficiency Payments
- VII. Systems on customer premises
- IX. Annual calculation of portfolio requirements
- XI. Development of Standards
- XII. Solar Water Heating & Solar air Conditioning Systems
- XIII. Environmentally Friendly Renewable Electricity Technologies
- XIV. Other Administrative Issues
